

BEST *TEACHERS* *STUDENTS*

Main aims of Project : Our Project is a 24-month-project and the objectives of the project is to develop and strengthen the profile of teaching professions by supporting teachers to deliver high quality teaching deal with complex classroom realities and adopt new methods and decreasing the school dropout level. With the project ,we want our teachers to feel responsible for the school development and their professional development. The teaching and learning process never ends. We know that formal and informal education completes each other. And we want the teachers to use any possible technological devices and approaches in their professional life by sharing ideas and practises. And all these approaches will help us reach our objectives of the project.

Also in our Project we want to decrease the school dropout level with the students activities ,by encouraging them to joining the activities. We are going to revise all the reasons of school dropout with the new point of view again. thanks to brainstorming on these reasons we will offer and apply new solutions .With the help of surveys we are going to organize and revise our activities according to the students' strengths and weaknesses. These surveys also tell us what kind of activities and supports are the most suitable for them. We also want our students to be active citizens and so they feel they are important for the society ,and they will try to reach their goals.

AGONY AUNT

Sometimes, I am doing something what I don't want to do. What can I do to fix this ?

ANSWER: As far as I see, you are doing something what comes to you wrong. People can have these problems sometimes. They do that because of different factors. But the most effective factor is people around you. First of all you should choose your friends carefully. If you have bad tempered friends, they will effect you badly. But sometimes the problem is about no badly, and you can be so unlucky.

I can't study lesson well, even I study so much, I am failing in the exams. Help me please.

ANSWER: This is a classic student problem. There are different reasons about that problem. I think, you aren't listening your teacher in lessons. This is a big problem. Because listening your teacher in lesson is half of studying. You should listen to your teacher first of all and then you should practise. I mean, just studying isn't enough and listening to your teacher is half of succes.

I am so fat. So I am thinking I am ugly. Because of that I am in depression. What can I do for this?

ANSWER: As for as I understand, you want to lose weight. That's not hard and you don't need to be in depression. If want, you can have a diet. But If you are thinking, you can't make it alone, you can have a diet coach. If you think, you can't lose weight, you can't. So you should believe it. Because believeng is half of succes. I konow. You can do it. Just believe your self.

INTERVIEW WITH IGOR

Dohovic

1.Are you travelling much?

-Yes, I'm travelling for my job sometimes. But normally, I am not travelling so much.

2.What kind of problems did you have in your career?

-There are lots of actually.But the biggest is about psychology.Because you have to check all musicians and thats is not easy of course.

3.Did you study hard at school ?

-Yes , its not easy as many people think .

4.What are your suggestions to us?

-You should study so much now.Because time pasts fast and if you don't study now, you can't be succesfull in the future.

TURKISH STORY

One day Nasreddin bought two kilos of meat from a butcher and then he came home. Then he wanted his wife to cook meat for evening and then he went back to work. When Nasreddin left, his wife cooked the meat. Then she called her friends and they ate meat together. At evening, Nasreddin came home. Then his wife prepared dinner for him. Then she put a plate of rice in front of Nasreddin. So he got surprised. Because he was waiting to eat meat. Then he got up fastly and took a steak because he wanted to beat the cat. Finally he found the cat. But it was right opposite. The cat was thin and skinny. So Nasreddin suspected. Then he wanted his wife to bring him scales. Then she brought it and then he weighed it. The cat was two kilos too. Then he asked "where is meat, if that is meat where is cat?"
